"INNOVATIVE" DNA

Throughout The Next Century

In May 2017, TOTO ushered in the 100th anniversary of the establishment. We look forward to tomorrow and the future, to provide people beyond expectations "every day".

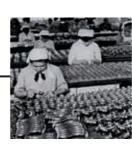

1917

The company was established by Kazuchika Okura under the name. TOYO TOKI CO. LTD. which was later renamed

1923

The Great Kanto Earthquakes struck devastating Tokyo. A sewage system was built during the reconstruction, leading to a rapid growth in demand for sanitary wares.

1946

After World War II, TOTO began manufacturing metal fittings and faucets in addition to ceramics.

1980

TOTO launched WASHLET, providing consumers with a whole new level of cleanliness and comfort.

2013

TOTO Asia Oceania launched its first Technical Center in Singapore. It serves to introduce TOTO latest products and technologies to customers.

2011

with its head office

in Mumbai.

TOTO INDIA TOTO India Industries Pvt Ltd was established

2008

TOTO Asia Oceania Pte. Ltd. was established as the headquarters of the Middle East, South Asia, South East Asia, and Oceania.

1993

NEOREST toilet was launched incorporating WASHLET with a comprehensive range of TOTO innovations. It brought with it the fullest realization yet of the principle of Clean Technology.

2014

TOTO India Industries launched its first Indian factory in Halol, Gujarat on 20th Aug, 2014.

2015

The TOTO Museum in Kitakyushu was opened to showcase the evolution of the business and its products. The museum highlights the historical landmarks that changed Japanese bathroom culture, including the move from rural to city living. Old toilet seats are on display, as well as exquisite porcelain tableware that the company used to produce as a side business in the past. TOTO aims to promote the appeal of this complex as a point of contact with visiting customers and clients. It positions as a landmark that disseminates information about the TOTO brand from Kokura, the birthplace of the company, to people all around the world.

2019

2024

TOTO India launched its first company owned showroom in India. With an area of 12000 sq.ft. and over 900 exclusive sanitaryware & technology products TOTO DELHI SHOWROOM (TDS) has gained fast popularity as a place for a design & architecture industry professionals to explore, discuss and share bathroom solutions.

TOTO Launched new **NEOREST lineup**

TOTO CLEANOVATION

Clean gives peace of mind

Clean makes life beautiful

Clean feels refreshing

Clean is caring for people and the planet

Clean brings wellness to everyday life

TOTO innovation brings a new world of clean to life, enriching every moment of every day.

Environment Sustainability

Conserving water

We continue to promote the reduction of water consumption during product use by developing waterefficient and comfortable products and distributing them on a global scale.

We promote water resource preservation at production sites by recycling and reusing water used in the production phase.

Preventing global warming

By 2040, We will source 100% of its energy needs from renewable sources.

The new generation of kilns reduces CO2 emission by 40%.

TOTO Water Environment Fund

For the regions where international assistance is needed, we aim for sustainable development through supporting organizations that engage in water-related environmental activities related to water, rather than through providing temporary material/financial support.

Current main activities

Foundation for International Development/Relief(FIDR)
Operation: Vietnam

Japan Asian Association & Asian Friendship Society(JAFS) Area of Operation : The Republic of the Philippines

WaterAid Japan Area of Operation : Kingdom of Eswatini

HOPE International
Development Agency Japan
Area of Operation: Ethiopia

Confront World

Area of Operation : Uganda

Mozambique
Area of Operation : Mozambique

It is a fund established by TOTO in 2005 in order to achieve a sustainable society through support for civilian organizations that engage in water-related environmental activities.

History of activities

Year of establishment 2005

Total amount of grants **391.8 million JPY**

Number of funded organizations 289 in total

We agree with the international initiatives toward the realization of a carbon-neutral and sustainable society

Understated Presence

Our wish is to provide,
as an integral part of everyday life,
enrichment to every person.
Our goal is to design products
with integrity and longevity,
to which people form an attachment over time.

Weaving together spaces that are beautiful and comfortable, and experiences that are pleasant.

This is the TOTO design.

The three elements that bring the TOTO Design Philosophy to life.

Design Elements

Gentle to people

- A part of everyday life
- Offers peace of mind
- Gentle to the human body

Comfortable

- Harmonizes with space
- Pleasant interface between people and objects
- Beautiful appliance

Sincere on Beauty

- Users find it pleasurable
- Retains beauty over time
- Creating a sustainable future

TOTO Reigns Supreme for 19 Consecutive Years in Japan

WASHLET G receives Mechanical Heritage Certification

WASHLET G

Date of Certification : 7th August, 2012

Organization : The Japan Society of

Mechanical Engineers

Certified Product : Mechanical Heritage

Certification No.55

WASHLET G (warm-water spray seat) Explanation of the certified product

First-class Architects' Preferred Sanitaryware Brand for 19 Consecutive Years in Japan

IItie

 Ranking of building materials and Brand that architects would like to use"in Japan

Publication - Nikkei Architecture Sept/Nov, (2005-2023)

"special feature" - Published in Japan

Publishing - Nikkei BP Consulting, Inc. Company

Company

*"Building Materials and Brand Ranking", an independent survey of first-class architects in Japan on building materials and equipment manufacturers they would like to use.

TOTO was ranked first in the "Toilet" category, and reigned at the top position for 19 consecutive years. Those who would like to use TOTO products particularly value their "functionality" and "design."

DESIGN AWARD

An internationally renowned design award since 1953.
It is held at iF International Forum Design GmbH in Hannover, Germany.
Products whose aesthetics, functionality, and innovativeness have been strictly examined and recognized by design experts.

ICON GUIDE

TOILET & WASHBASIN

ACTILIGHT

Photocatalytic glaze, the ultimate cleaning technology, has the natural power to decompose waste.

EWATER

Ewater+ sprays the wand, toilet bowl and the underneath of the seat with electrolyzed water, keeping them clean to reduce the need for harsh chemicals.

CEFIONTECT

Advanced CEFIONTECT glaze creates an ultra-smooth surface that resists dirt and buildup, keeping ceramics cleaner for longer with less water and chemical use.

PREMIST

A film of water keeps waste from sticking onto the toilet bowl.

TORNADO FLUSH

360° cleaning power reaches every spot using less water.

RIMLESS

The RIMLESS design not only leaves no place for waste and germs to hide, it's also much easier to clean.

AIR-IN WONDER-WAVE

AIR-IN WONDER-WAVE uses air-rich water to create a comfortable washing sensation while ensuring better cleansing with less water.

LINEARCERAM

Material used for lavatories that achieves an extremely thin design yet two times as strong as standard fireclay.

WATER SAVING

Innovative design that minimizes water usage with every flush, ensuring efficiency and environmental sustainability.

COMFORT TECHNOLOGY

AUTO FUNCTIONS

Product featuring integrated and automated sensor-activated functions

HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature

DEODORIZER

Highly- effective deodorizing automatically takes place inside the toilet bow both during and immediately after use, eliminating unwanted odors.

WARM AIR DRYING

The warm air dryer works in sync with the water spray for a fresh, dry feeling.

FAUCET

SOFT FLOW

Elegant streams of water gently touch skin.
A premium calming experience. Soft and soothing.

COMFORT GLIDE

Comfort goes beyond ease of movement, lasting ease of use becomes true comfort. That's why TOTO designed an internal valve based on user touch, ensuring smooth, reliable operation.

ECO CAP

A feature that mixes air with water to reduce water usage while still providing an effective wash, helping to conserve resources without compromising performance.

ECO POWER

A touchless faucet technology that generates its own electricity using water flow, eliminating the need for external power sources and promoting energy efficiency.

SHOWER

WARM SPA

Embraced in warmth, relaxed & Ready for rest Gentle stream of warm water that envelopes the body

GYROSTREAM

A rotating shower nozzle with pulsating water stream that creates a massaging effect.

COMFORT WAVE

Experience the sensation of large droplets of water, richly dense and pleasing to the scalp, delivering a luxurious sense of comfort with every use.

INTENSE WAVE

A stimulating water stream that provides a more vigorous showering experience. Ideal for relaxing tired muscles or kickstarting your day.

ACTIVE WAVE

INTENSE WAVE+

Enhanced with stronger water pressure, offering an even more intense, revitalizing flow for ultimate relaxation and stimulation.

SAFETY THERMO

SMA Thermostatic Valve Technology uses a responsive Shape Memory Alloy coil to quickly adjust water temperature for a safer shower experience.

HEAT PROTECT

Prevents burns by covering hot water paths with a layer of cold, ensuring safety and comfort with a beautifully designed fixture for a more pleasant bath experience.

MINI UNIT

Unified exterior sizes for concealed shower valves creating a balance of bathroom space.

BATH TUB

ZERO DIMENSION

ZERO DIMENSION bathing offers freedom from gravity, releasing stress on joints and encouraging ultimate relaxation

HYDROHANDS

eeply stimulating water massage gives the feeling of real hands neading tired muscles.

RECLINE COMFORT

A reclined bathing position that supports the neck and back, delivering a deep sense of relaxation and tranquility for a rejuvenating experience.

DESIGN AWARDS

ne Red Dot is an award for nigh-quality design an international jury nly awards this sought-after seal of quality to products that feature utstanding design

The iF DESIGN AWARD has long been a symbol of excellent form and aesthetic quality, as well as user-focused, ergonomic and efficient design in all disciplines among companies around the world

NEOREST

NEW REST"NEOREST is changing the conventional wisdom of restrooms though its creation of new restroom spaces and uses. It is constantly evolving for our everyday well-being.

TORNADO FLUSH

AUTO FUSH DEODORIZER HEATED SEAT

RIMLESS CEFIONTECT

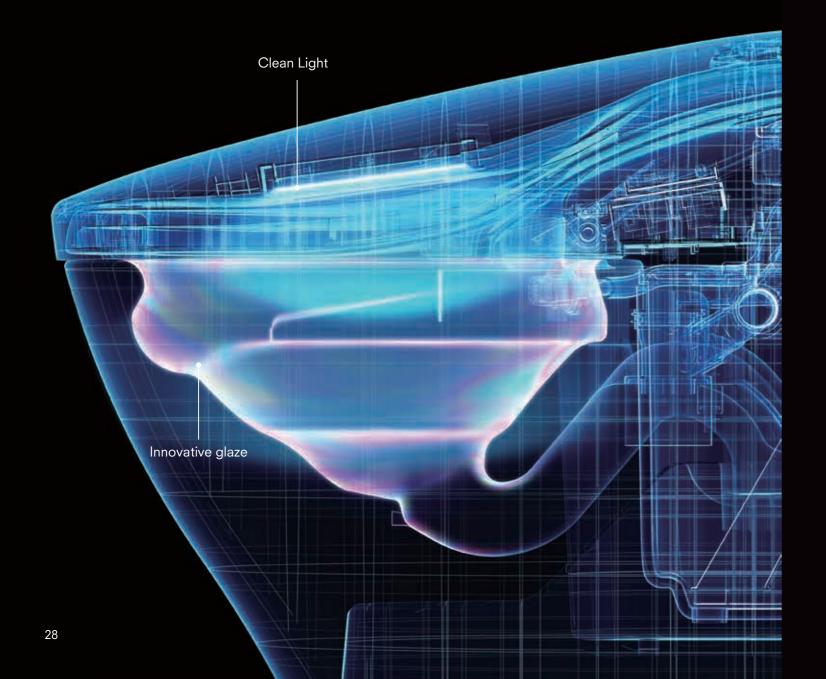

CLEAN TECHNOLOGY

Ensuring lasting cleanliness for your peace of mind

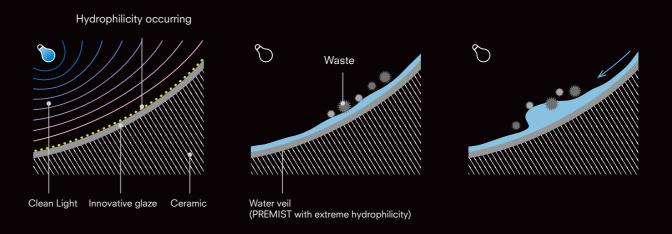

Photocatalytic glaze, the ultimate cleaning technology, has the natural power to decompose waste.

CLEAN Light and the extraordinary surface treatment enable easy removal of even microscopic debris and particles.

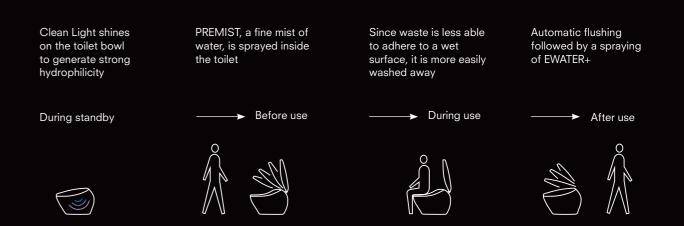

State-of-the-art materials

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to attract water to the surface and keep the surface clean after use.

Operates 24 hours a day to maintain clean conditions

CLEAN Light and the extreme hydrophilic surface of the toilet bowl combine to make it easy to wash waste away and keep the toilet bowl surface clean.

for BOWL

Suppresses the accumulation of waste on the toilet bowl. Electrolyzed water reduces waste and dirt you can't see.

EWATER+

WASHES THE TOILET BOWL, WHERE WASTE TENDS TO ACCUMULATE AND PRODUCE STAINS THAT CAN BECOME PERMENANT.

Using no chemicals or cleaning agents, EWATER+ leaves microscopic waste no place to hide and provides everyday peace of mind.

How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away

EWATER+ is applied to wash the wand and toilet bowl and remove waste

EWATER+ is automatically sprayed 8 hours after the last use

Before use

During stand by

tap water

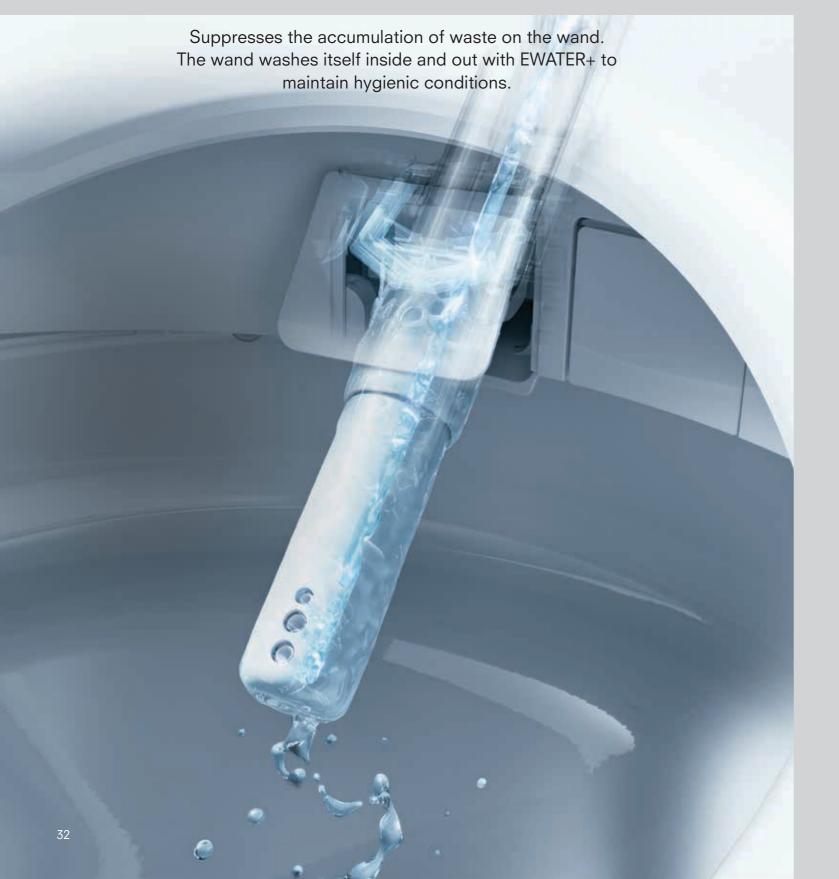

Reverts to normal water with time

EWATER+

AFTER EACH USE,

THE WAND AUTOMATICALLY WASHES ITSELF WITH EWATER+.

This thorough cleaning occurs inside the wand as well as all around the exterior. Even when the toilet is not being used, the wand periodically washes itself to ensure constant clean conditions.

Self-Cleaning Mechanism

Always Keeping Conditions Clean

Made of high-quality, waste-resistant resin and automatically sprayed with EWATER+ after each use, the wand is extremely resistant to waste and stains. What's more, the wand attaches to the seat, not the bowl, so waste is less likely to even reach it.

Though the wand is self-cleaning, you will appreciate how easily you can reach it and wipe it spotless.

EWATER+

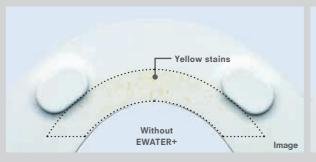

for UNDER SEAT

EWATER+ suppresses hard-to-see waste underneath the toilet seat.

EWATER+

EWATER+ IS SPRAYED ON THE EASILY FOULED FRONT SECTION OF THE BACKSIDE OF THE TOILET SEAT.

This helps suppress urine and other waste from becoming yellow stains, for long-lasting cleanliness. A quick manual spray before cleaning allows you to remove waste with a light wipe.

Survey: Evaluation of waste on the front section of the backside of the toilet seat with and without use of EWATER+ Usage conditions: A number of uses equivalent to usage for two weeks by a family of four (without cleaning)

*Results vary according to usage and environmental conditions.A II data collected by TOTO. The dotted lines in the figure show the area over with EWATER+ is sprayed.

How EWATER+ Cleans

PREMIST, a fine mist of water is sprayed inside the toilet

Since waste is less able to adhere to a wet surface, it is more easily washed away After you step away from the toilet, EWATER+ is sprayed in the toilet bowland underneath the toilet seat, after which the lid automatically closes EWATER+ is automatically sprayed 8 hours after the last use

Before use

After use

During stand by

EWATER+ reaches underneath the toilet seat.

EWATER+ is sprayed throughout the toilet bowl, with large droplets covering the bowl surface and small droplets carried by air currents reaching the front section of the backside of the toilet seat

CEFIONTECT

PREMIST

Forces waste to slide down.

Ultra-smooth ceramic leaves nowhere for waste to cling.

Prevents waste from clinging.

A film of water keeps waste from clinging onto the toilet bowl.

CEFIONTECT

IS AN ULTRA-SMOOTH CERAMIC GLAZE THAT COATS THE TOILET BOWL.

Its microscopic surface ridges are far smaller than waste particles, leaving no place for waste to gain a foothold. Extremely durable, CEFIONTECT is designed for enduring beauty and cleanliness.

Eliminating the microscopic gaps where waste hides

Conventional ceramic may appear perfectly smooth to the eye, but it has gaps where waste particles can hide.

At just one millionth of a millimeter, CEFIONTECT's surface ridges are much tinier than waste particles.

What makes CEFIONTECT so durable?

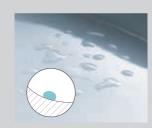

A glass layer is burned over the conventional glaze layer, making CEFIONTECT an extremely durable material.

CEFIONTECT toilet micrograph *1Qm=0.001mm

Water has a strong affinity to CEFIONTECT

Hydrophilic describes organisms and materials that attract water. CEFIONTECT is hydrophilic. Water spreads easily over the toilet bowl, so waste particles easily wash away.

Hydrophobic

Hydrophilic

PREMIST

To ensure waste washes away easily, a film of water keeps waste from clinging onto the toilet bowl.

PREMIST automatically sprays water over the surface of the inner toilet bowl before every use.

Due to the ceramic's hydrophilic nature, waste washes away more easily.

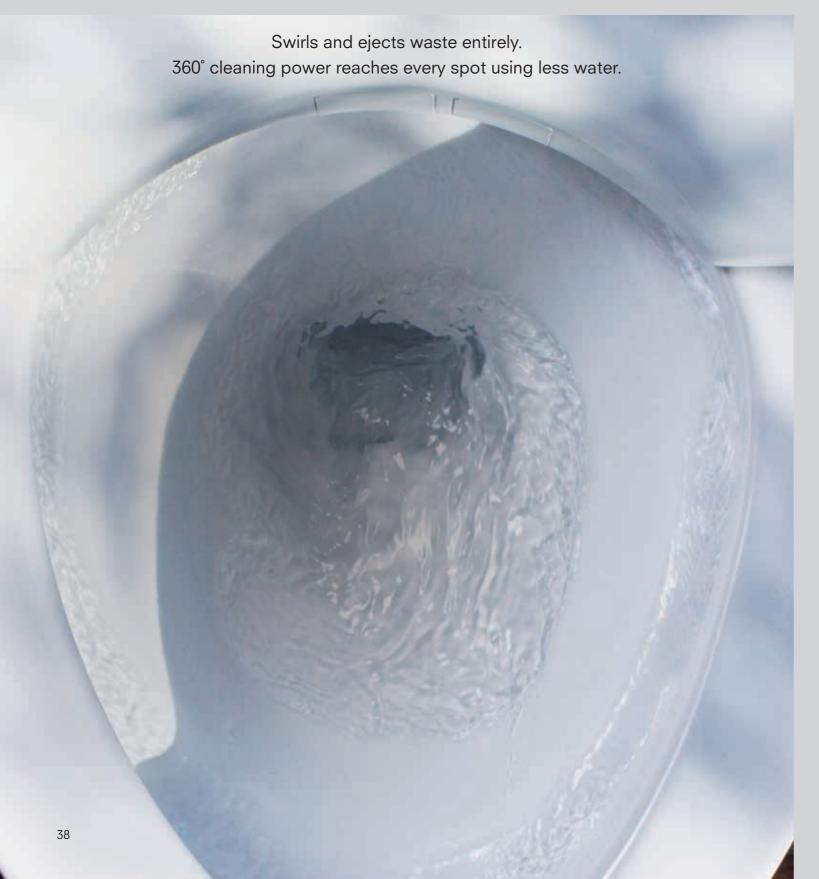

TORNADO FLUSH

TORNADO FLUSH

NOT ONLY CLEANS MORE EFFECTIVELY, IT DOES SO QUIETLY USING LESS WATER.

Powerful streams of water merge and swirl 360 degrees, washing every spot inside the RIMLESS toilet bowl.

Powerful washing where waste can easily accumulate

TORNADO FLUSH's dynamic waterjet discharges from near the front of the toilet bowl, travels in a narrow channel along a hairpin curve, and with sustained water pressure thoroughly cleanses the areas where waste accumulates most easily to wash the entire bowl clean.

The exquisitely-designed, high-quality ceramic bowl makes this innovative design possible.

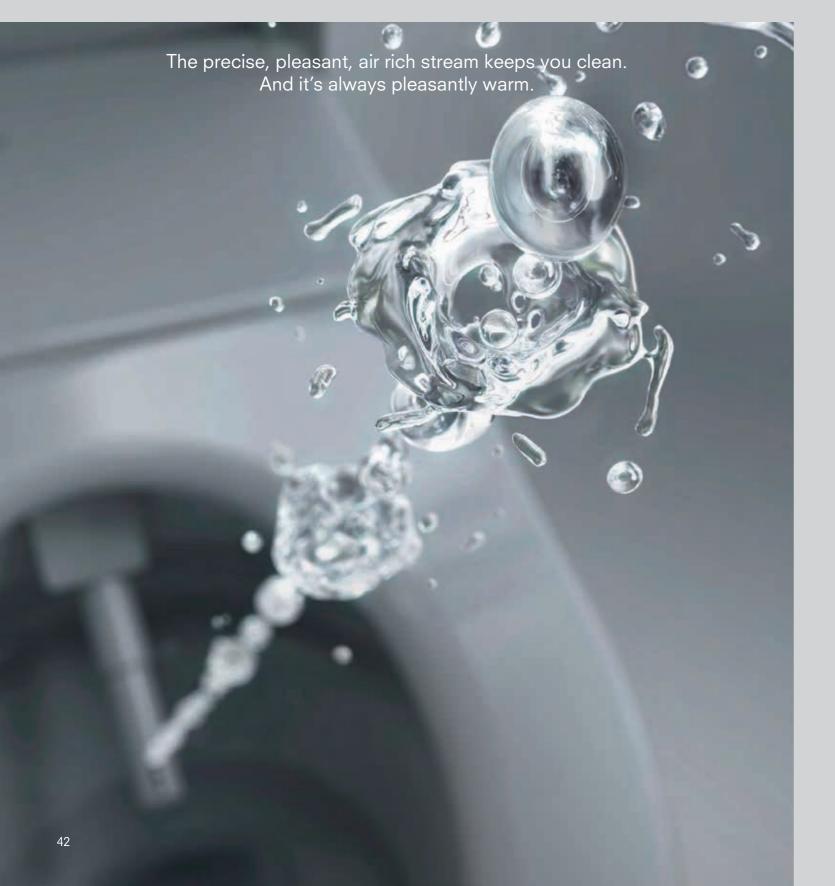

RIMLESS

The RIMLESS design not only leaves no place for waste to hide, it also makes it much easier to clean the toilet.

WONDER-WAVE **

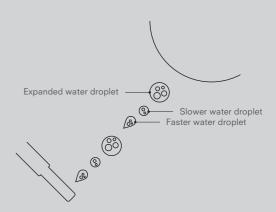

AIR-IN WONDER-WAVE

AIR RICH WATER DROPLETS TO PRODUCE A MORE COMFORTABLE WASHING SENSATION AND DELIVER MORE THOROUGH CLEANSING WITH LESS WATER CONSUMPTION.

Even more, water is warmed instantly as needed, so you need not worry about running out of warm water.

How AIR-IN WONDER-WAVE works

AIR-IN WONDER-WAVE technology is a precise and pleasant air-rich stream that keeps you clean. As water droplets are fired at different speeds, small droplets collide with larger ones, combining and expanding as they fill with more air. The injection of air enlarges the water droplets by approximately 30%.

Select the type of cleansing you desire.

NEOREST® NX2, NX1 Remote Control

REAR CLEANSING

Large air-filled water droplets provide a comfortable sensation and complete cleansing with minimal water use.

SOFT REAR CLEANSING

Plentiful showers of water provide a gentle sensation and complete cleansing over a wide area.

FRONT CLEANSING

A gentle dispersion of large water droplets ensures intimate cleansing in the most comforting way.

WIDE FRONT CLEANSING

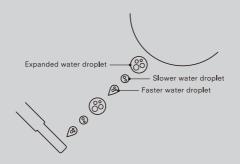

Showers of small water droplets reach a wide area, ensuring a gentle sensation for sensitive skin.

CLEANSING SPRAY PATTERNS

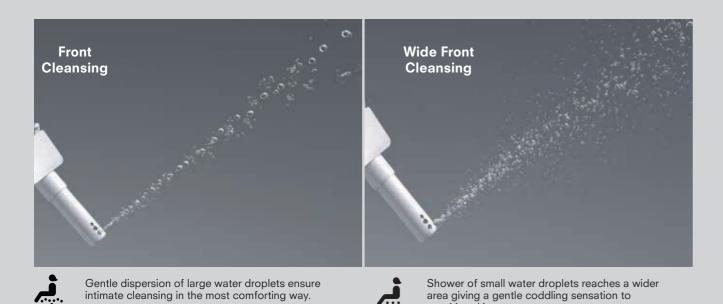

HOW AIR-IN WONDER-WAVE WORK

As water is fired at different speeds, small droplets collide with larger ones, combing and expanding as the droplets fill with more air. The injection of air englarges water droplet by around 30%

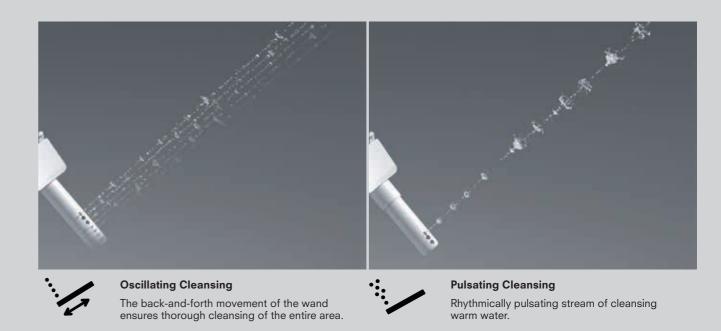

minimal water use.

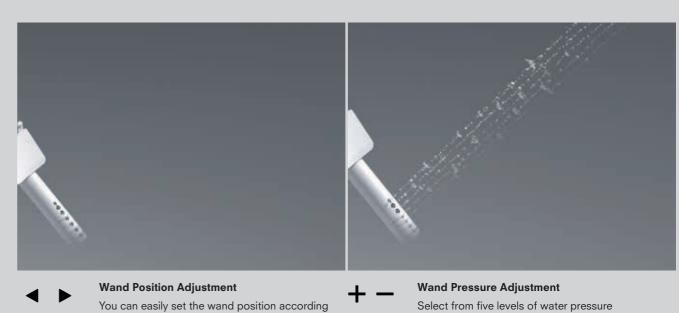

sensitive skin.

to your preference.

COMFORT TECHNOLOGY

For greater performance and hygiene in the bathroom

AUTO OPEN/ CLOSE LID

Eliminating the need to touch the toilet surfaces, the lid automatically opens and closes when the toilet is approached and departed.

SOFT LIGHT

Subdued lighting switches on when the toilet is approached, so users don't have to be exposed to bright bathroom lights at night.

HEATED SEAT

The moment you approach the toilet, the seat begins to rapidly warm up to a comfortable temperature.

DEODORIZER

Highly-effective deodorizing automatically takes place inside the toilet bowl both during and immediately after use, eliminating unwanted

AUTO FLUSH

No need to touch buttons or the handle and never worry about someone forgetting to flush — it's automatic after each use.

WARM AIR DRYING

Enjoy the ease and comfort of the temperatureadjustable warm-air dryer.

Ultra-powerful water conservation. Flushes waste completely every time - no matter where the toilet is located.

HYBRID ECOLOGY SYSTEM

HYBRID ECOLOGY SYSTEM combines two innovative water streams—one from the plumbing system and one from a small tank inside the toilet—to maximize flushing efficiency.

Using minimal water, HYBRID ECOLOGY SYSTEM is so effective at removing waste that a second flush is never required. What's more, the flushing power remains strong regardless of how high up in a building the toilet is located.

CLEAN SYNERGY means eco-friendly

CLEAN SYNERGY technologies offer a sustainable way to maintain sanitary conditions inside your toilet. Since waste does not accumulate and create stains, there is less need for manual cleaning with detergents.

Sustainable cleaning

WASHLET sprays the non-porous ceramic bowl with EWATER +, to help prevent the buildup of microscopic waste. Free of chemicals and cleaning agents, EWATER returns to the water cycle as pure H₂O.

WHAT IS EWATER+

EWATER+ is water containing hypochlorous acid that is used for cleaning and other purposes.

Hypochlorous acid is effective in suppressing the growth of bacteria.

Chloride ions contained in water are electrolyzed to create water that contains hypochlorous acid.

SUPPRESSES the accumulation of Waste on BOWL

EWATER+ washes the wand and toilet bowl where waste tend to accumulate and produce stains that can become permanent. Using no chemicals or cleaning agents, EWATER+ provides peace of mind every day that microscopic stains has no place to hide.

Survey: Study the effectiveness of EWATER+ by comparing the state of cleanliness of toilets that receive no cleaning versus toilets that are self-cleaned with EWATER+. No additional cleaning was allowed. Survey period: One month (Feb. - Mar. 2017). Subjects: Families of four. *Results vary according to usage and environmental conditions. All data collected by TOTO.

How EWATER+ cleans

PREMIST, a fine mist of ordinary water is sprayed inside the toilet

During use

Since waste is less able to adhere to a wet surface, it is more easily washed away

EWATER+ is applied to wash the wand and toilet bowl and remove waste

After use

EWATER+ is automatically sprayed 8 hours after the last use

ECOWASHER

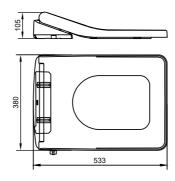

The ECOWASHER is extremely convenient because it does not require any electricity. The water from the nozzle is controlled solely by water pressure. Without needing an electrical outlet, it is easy to install and remove for cleaning purposes.

Features

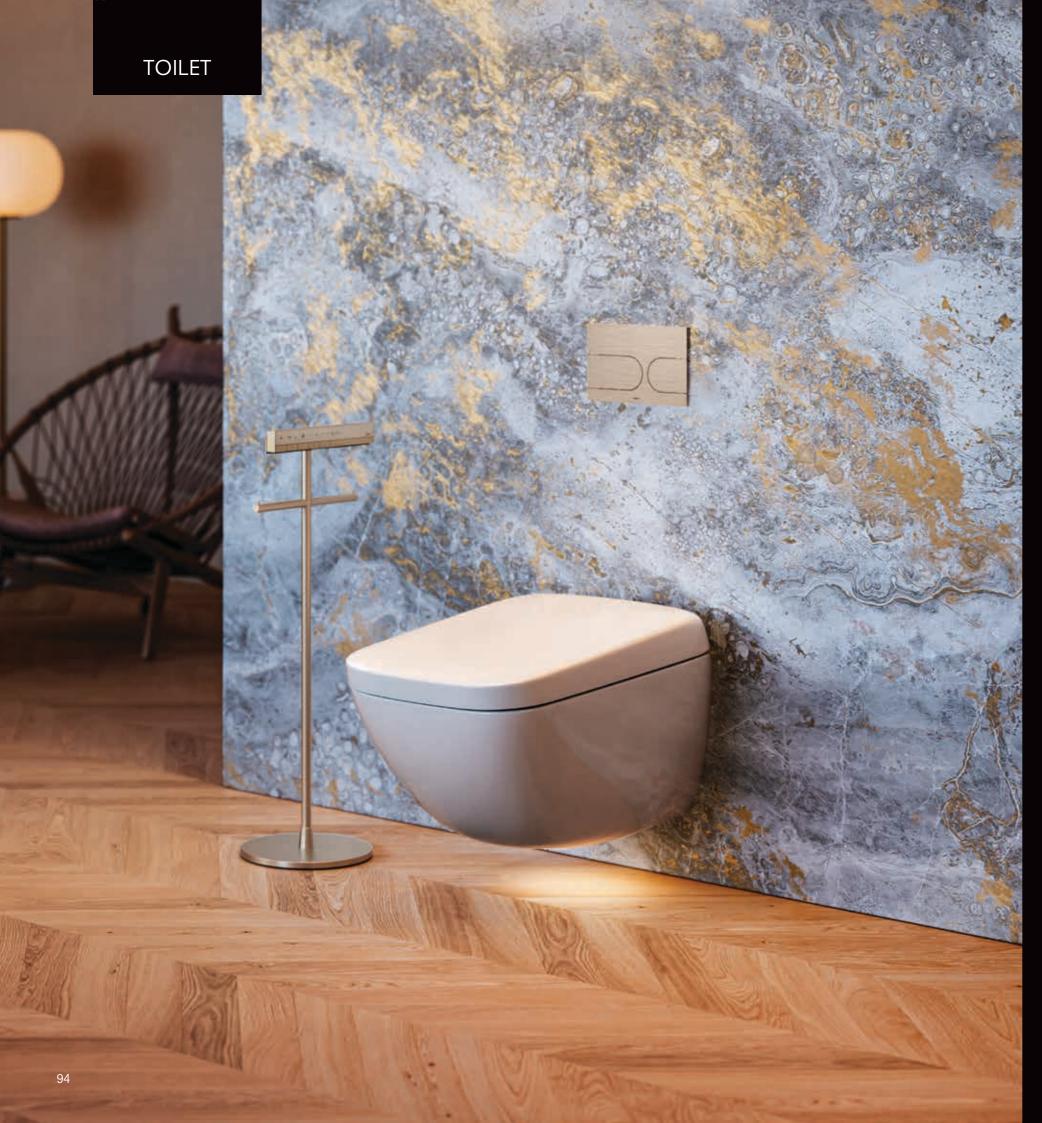

Easy remove for Self cleaning Soft closing cleaning

TOILET

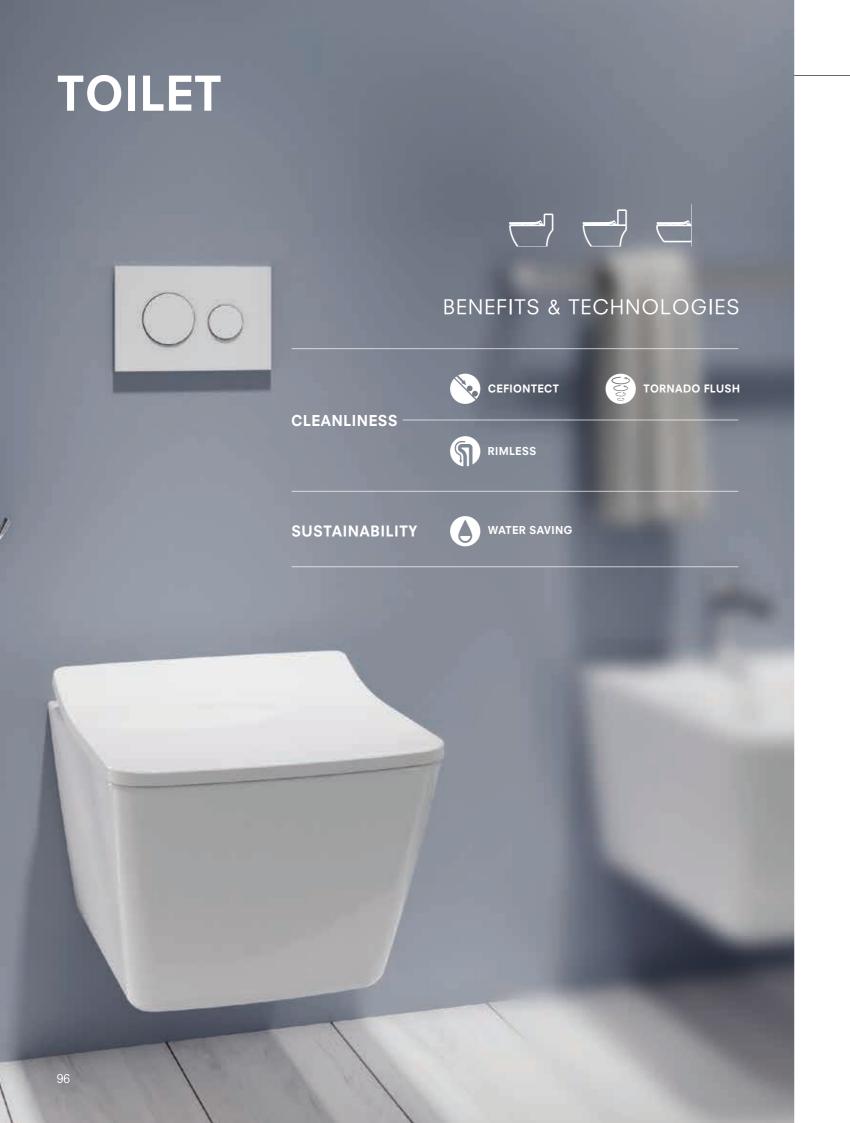

TOTO products represent the next generation of washroom products. We continuously make technological advancements to develop the most hygienic, comfortable and sustainable toilets. Combined with TOTO's distinctive minimalist design aesthetic, our toilets enhance every washroom setting.

CEFIONTECT

Ultra-smooth ceramic leaves nowhere for waste to cling

Advantages

Easier to clean, dirt resistant, minimises the amount of toilet cleaner required

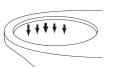

Advantages

TORNADO FLUSH

360° cleaning power reaches every spot using less water.

Regular Flushing

A more quiet flush, cleans the entire bowl more thoroughly hence reducing the need for chemical cleansers

TORNADO FLUSH

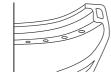

RIMLESS

Regular Rim

RIMLESS

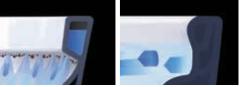

The RIMLESS design leaves no place for waste and germs to hide.

Advantages

Easier to clean, minimises the need for toilet cleaner

LW896JW/F#ASB Console Washbasin Size: 620W x 430D x 130H W/Bracket

LINEARCERAM's accurate design harmonizes with any space. Sophisticated and inviting to use, LINEARCERAM is a new paradigm in bathroom aesthetics.

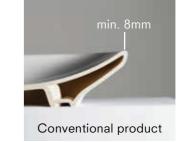

TOTO has developed a new material "LINEARCERAM" that is stronger than general fire clay by combining unique ingredients. This gave us more freedom of design and made a highly accurate design possible.

We created a cutting-edge design that is extremely thin, emphasizes its linear contours and smoothness.

CEFIONTECT clean

LINEARCERAM features TOTO's proprietary technology for preventing the adhesion of dirt and ensuring easy cleaning. CEFIONTECT has superior durability for long term use.

BATHTUB

Give yourself the time to indulge in luxury everyday. Taking a bath is no longer just about cleansing your body but also soaking in extreme comfort and tranquility.

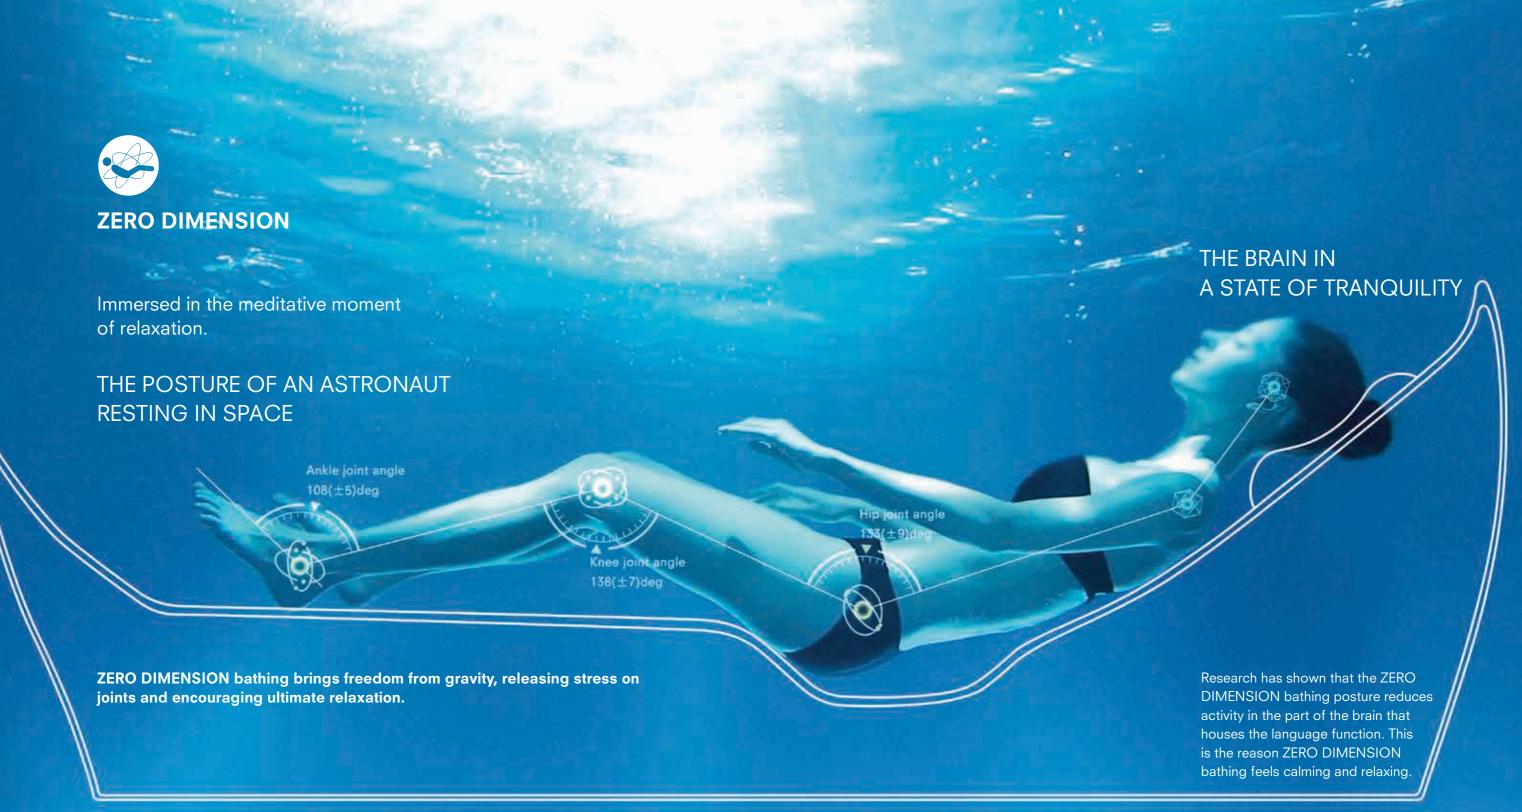

TOTO's wide-range of bathtubs are specially designed to maximise the little time you have for yourself. Unwind in a luxurious sanctuary for relaxation and meditation.

ZERO DIMENSION HYDROHANDS RECLINE COMFORT

After more than a decade of research on body positioning, bathing and neurological relaxation,

TOTO developed the FLOTATION TUB. Its design simulates zero gravity by offering bathers the experience of total weightlessness. By releasing the bather from the bonds of gravity to float in a tension-free state,

deep muscle relaxation occurs that calms the body, mind and spirit, creating a sanctuary from the physical and mental fatigue that today's world brings.

ADVANCED TECHNOLOGY ENCOURAGES RELAXATION

Exclusive features that make every bathing experience a luxurious occasion.

NECK BATH

With variable pillow positions ensuring stability, people of all body shapes can enjoy the warmth of the bath from above the shoulders to the neck.

CONTROLLER

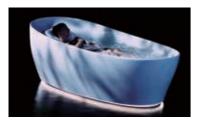

The electrostatic controller is operated by the slightest touch.

HYDROHANDS

Deeply stimulating water massage gives the feeling of real hands kneading tired muscles.

LED LIGHTING

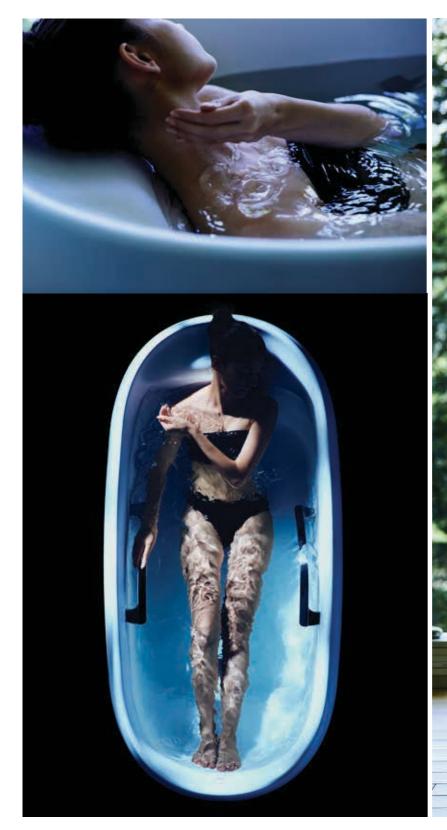

In the outer perimeter of the tub's base, LED lighting supplies a dream-like ambience.

AIR-JET

Fluctuating streams of air bubbles rise from below and envelop the body with a soothing sensation.

Nestled in comfort, feel your body and mind release into a state of tranquility.

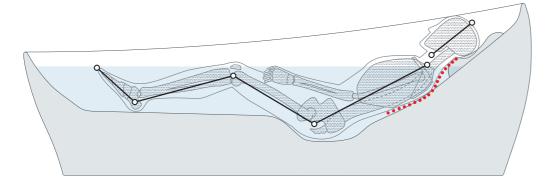

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations.

Bathing position comparison

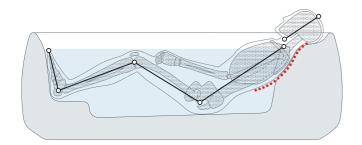

ZERO DIMENSION

The posture of an astronaut resting in space ZERO DIMENSION bathing brings freedom from gravity, releasing stress on joints and encouraging ultimate relaxation.

RECLINE COMFORT

The weight of the head releases onto the headrest, the body receives the sensation of a comforting embrace. The natural S-curve of the spine is maintained all along the neck and down the back, encouraging deep release. This position provides a deep sensation of ease and tranquility. It is a bathing experience that brings relaxation beyond expectations.

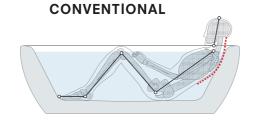

COLOR

You can choose between a high-gloss finish that looks like ceramics or a matte finish with a subdued texture.

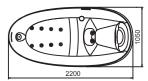

In a conventional bathtub, the low water height and a rounded low back make complete relaxation difficult to attain. The shoulder and neck area do not receive warmth from soaking and the bathing position can feel tight and cramped.

Everyday ease-of-use that is grounded in the senses.

Comfort. For TOTO, this does not simply mean comfort of movement. Ease of use, when it lasts a long time, becomes comfort in itself. For this purpose, TOTO has developed the internal valve ba sed on users' touch.

Designed from the ground up to provide a fundamental comfort in operation.

Special coating for prolonged comfort

The ceramic disc, a core valve component, is covered with a special DLC (Diamond Like Carbon) coating. This ensures long-lasting quality over conventional faucets that use a greased valve.

Precise flow control, exclusive to TOTO.

Our exclusive technology means new functionality. We took the core component of the valve, the ceramic disc, and customized its shape for ease of use. Compared to conventional faucets, it's easier to control water flow when just a little is required, such as when you are washing a contact lens. Because you can achieve the right amount of water flow instantly, it helps conserve water.

*Adjustable flow functionality is not available on side-handle models.

Lightness and dignity in a natural shape for a timeless design.

An asymmetrical faucet handle and washbasin bowl in beautiful harmony.

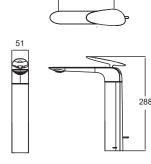

With the thinness of a flower petal, the organically shaped ZA series handle matches the delicate curve of the washbasin bowl in a way that suggests a breeze or a melody, further enhancing the appeal of the design for a fresher everyday in spaces that share its natural motif.

210

A precise, ultra-thin form delivers a tranquil, keenly framed beauty.

The smooth, flat, mirror-like surface and ultra-thin edge generates a contrast in two dimensions whose overwhelmingly delicate look – made possibly by advanced processing technology – shares a design philosophy with the square-lined, sharp-edged washbasin bowl.

ZL SERIES FAUCETS

Enhancing flow and gesture, the design fits the sharp washbasin bowl.

Abundant water flows like a waterfall from the horizontal spout, while the handle can be operated gracefully with a gentle pinch of the fingers. Beautifying even the flow of water and human gestures, the design resonates with the sharp, square washbasin bowl to create a richer space.

SHOWER

Feel the soothing effect of water with TOTO showers. Equipped with sophisticated technologies, these fittings will bring you a transformative cleansing experience.

INTENSE

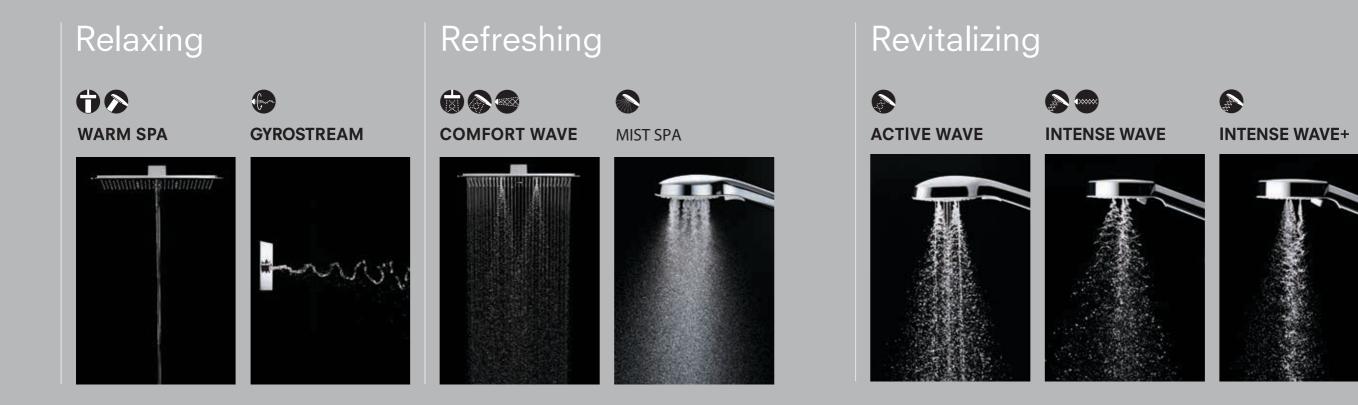

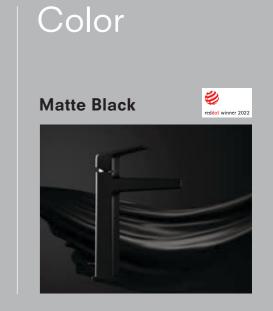

Feature

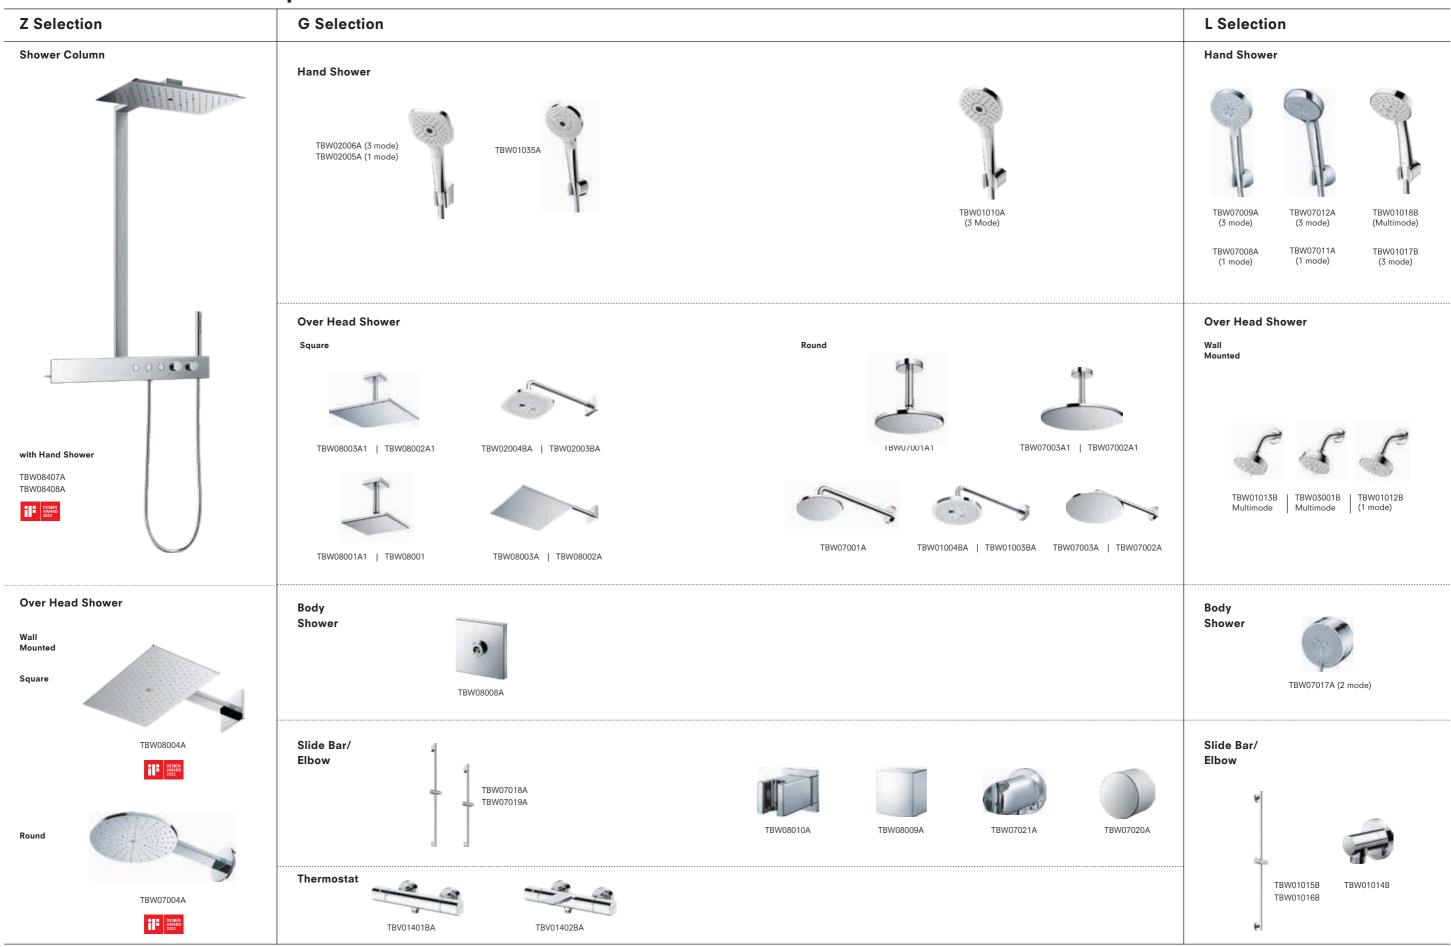

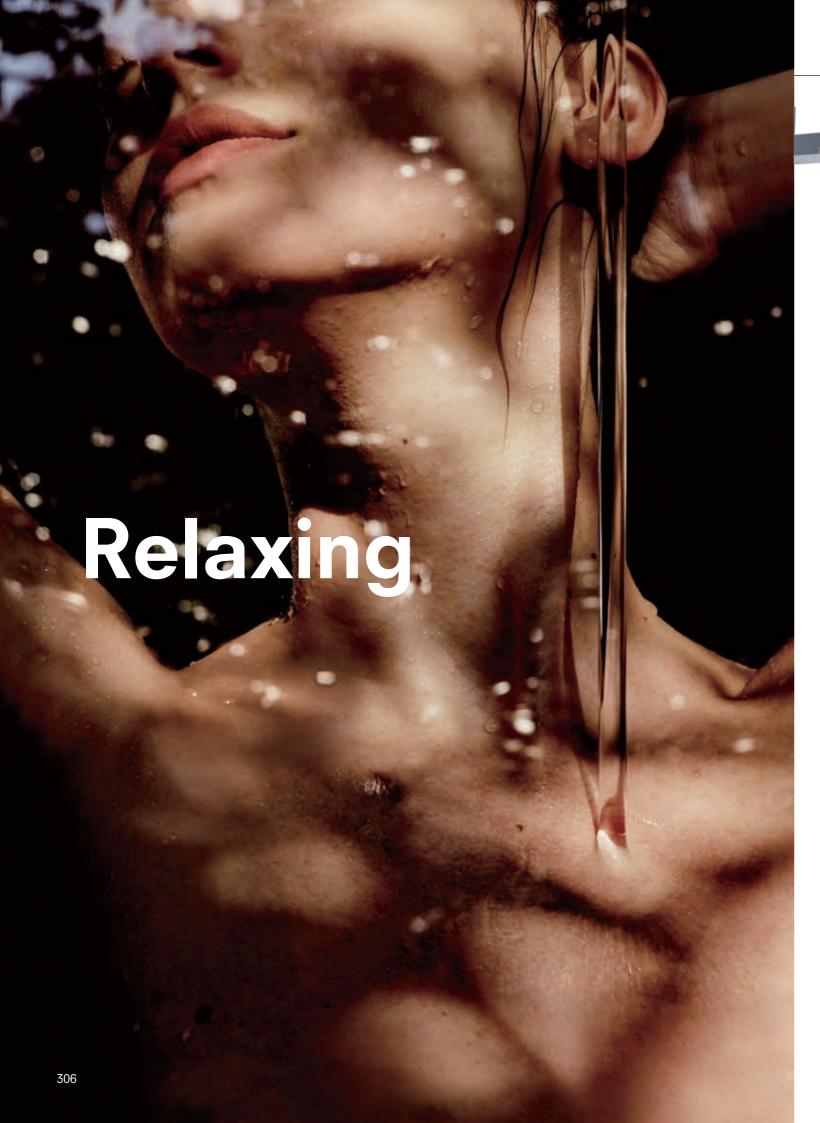

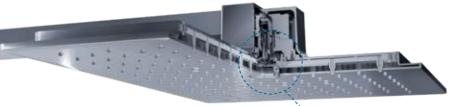

SHOWER-Product Line up

Over Head Shower (Z Selection)

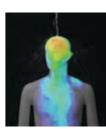

Embraces you in warmth Helps you relax Leaves you ready for rest

COVENTIONAL SHOWER

Controls the waters flow

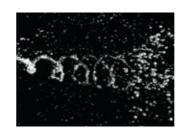

Utilizing a unique interior structure, the flow of water is controlled to provide a smoother shower

WARM SPA

Let no heat escape Smooth water release means less heat loss. The water cloaks your body, quickly warming it.

A relaxing vortex of water that cleanses and massages

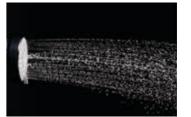

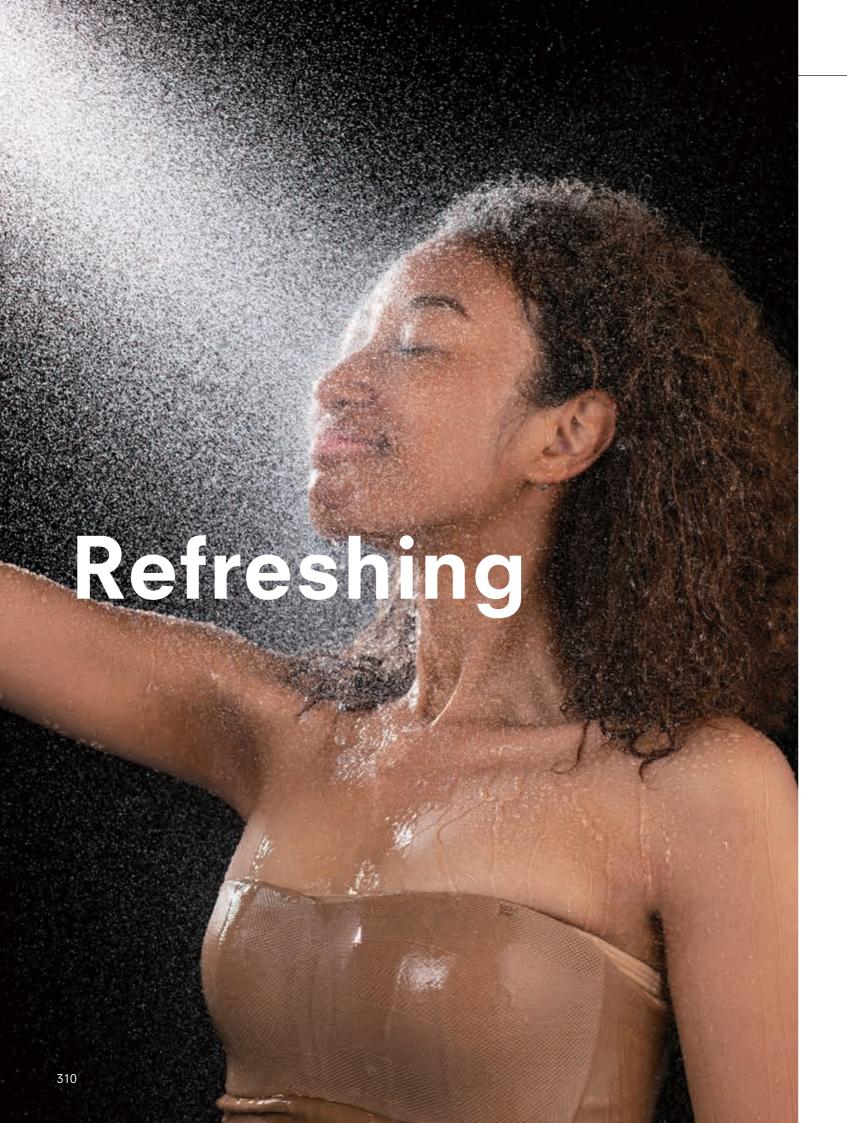

THAT QUALITY: ONLY TOTO

The image illustrates water prevention. While the fine drops of the conventional shower bounce off the hair, the larger drops of the COMFORT WAVE reach all the way to the scalp.

NEW

MIST SPA

Let the luxurious microbubbles wrap their veil of mist around you, rinsing away everything but your true self.

1.3 times the rinsing power of COMFORT WAVE

Testing conditions

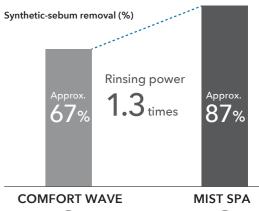

MIST SPA flow rate: 3.5 L/min (0.92 GPM)

COMFORT WAVE flow rate: 6.5 L/min (1.72 GPM)

Flow duration: 15 sec. Flow temperature: 42±1°C (98° - 102° F)

Note: One microliter synthetic sebum was applied to a human subject's arm and rinsed off under the testing conditions specified above. The percentage of synthetic sebum removed was then measured. Testing performed by TOTO.

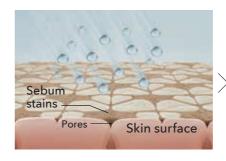

Note: Results may vary based on usage conditions and individual

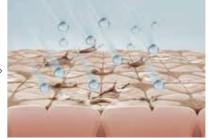

A mist of ultrafine bubbles gently cleanses the skin

The mist is infused with ultrafine bubbles and is gentle on the skin

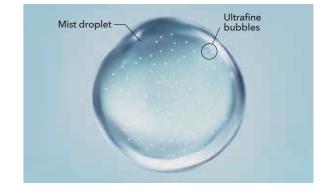

What are ultrafine bubbles (UFB)?

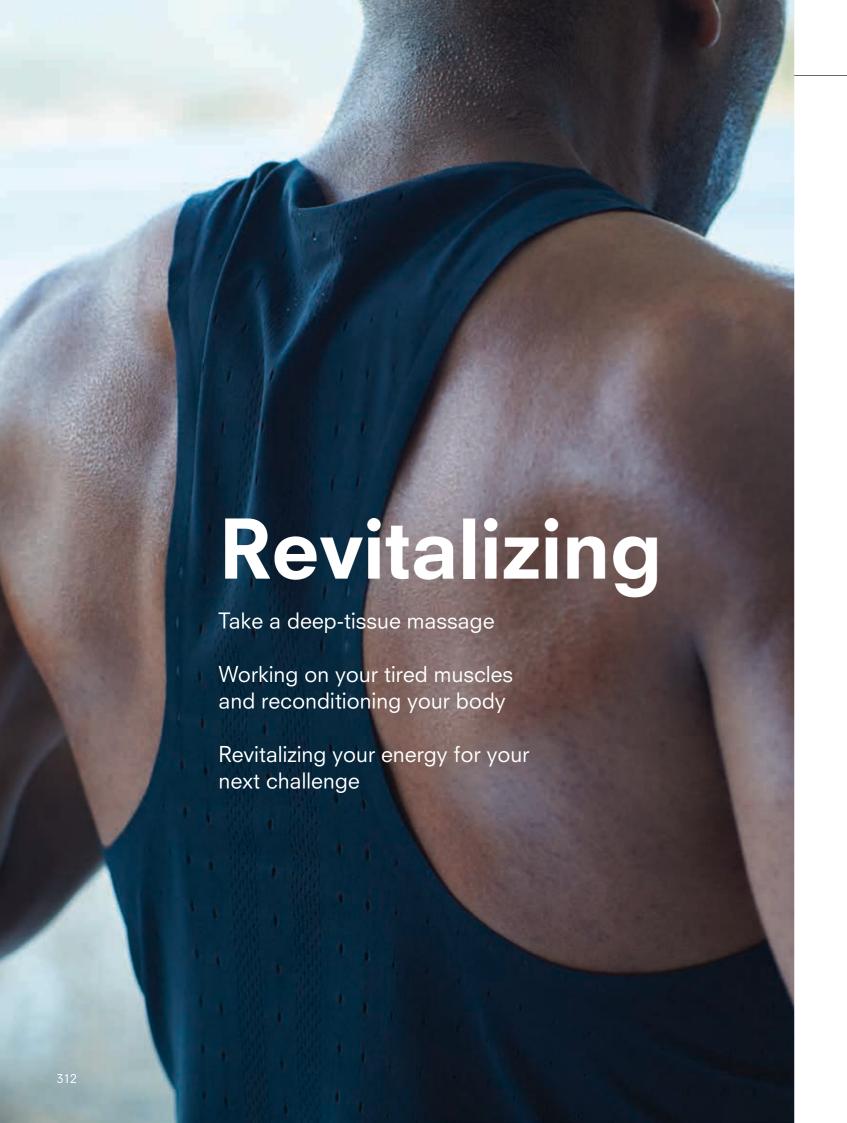

Air bubbles smaller than 1 micrometer in size.

Size and amount of MIST SPA's UFB

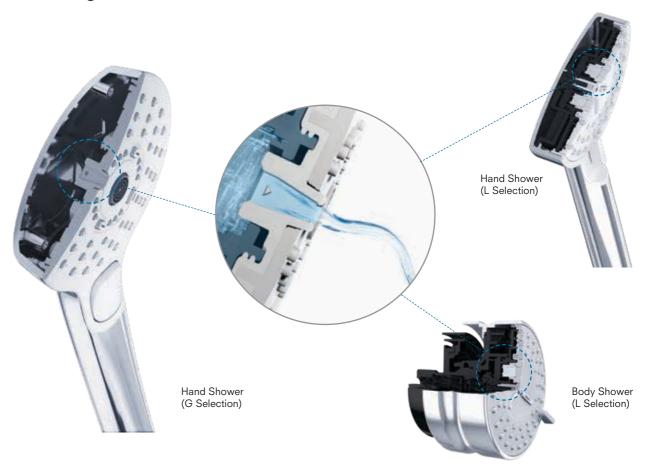

UFB diameter: approx. 0.11 micrometer

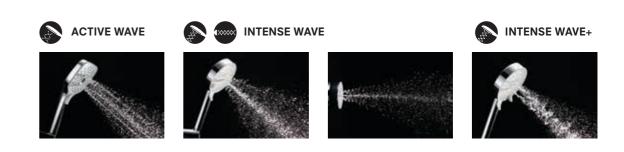

UFB amount: average of approx. 18.8 million/ml

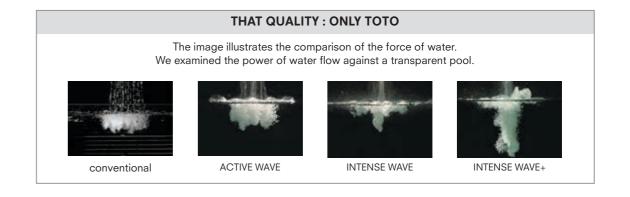

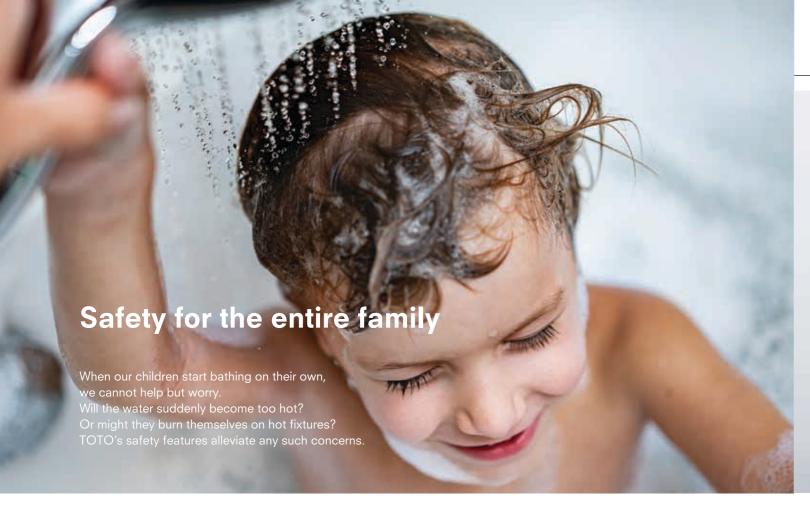

Stimulating to body and mind. Awakening to the senses.

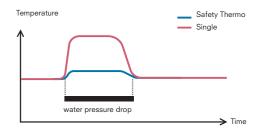

Prevents rapid rises in temperature for a safer bath time.

A coil made of Shape-Memory Alloy (SMA Coil) reacts instantly to water temperature change, keeping the temperature from rising.

By comparison with the SINGLE product, SAFETY THERMO produces a smaller range of temperature fluctuations during bathing, even when the water pressure drops due to a toilet flushing.

TBV01402BA

TBV01402BA With Spout

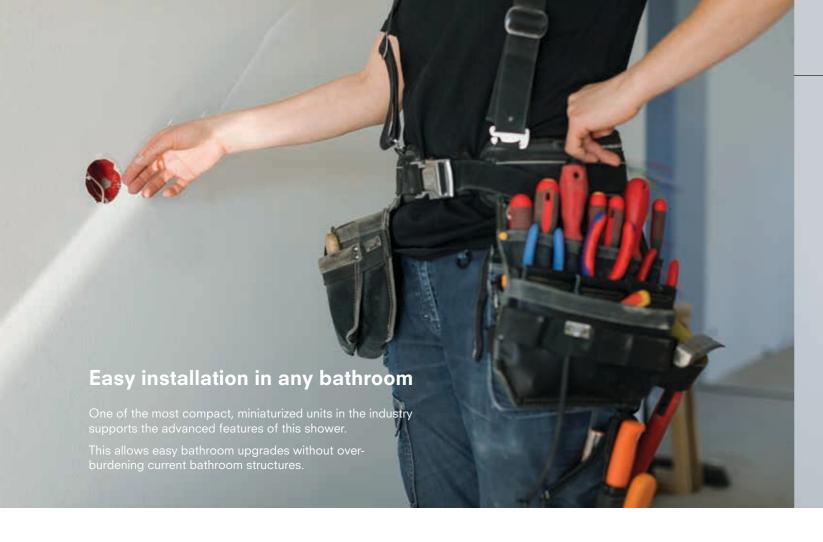

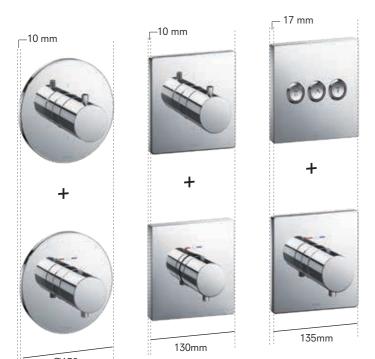

Prevents getting too hot and is beautifully shaped for a more pleasant daily bath time.

By covering the path of the hot water with a layer of cold, HEAT PROTECT is able to prevent burns when accidentally touching the fixtures.

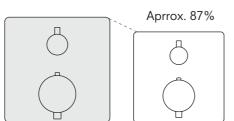

Industry-leading miniaturization. beauty in balance.

We shrunk the unit to one of the industry's smallest. The trims are also some of the most compact. In addition, our progress towards uniform sizes mean units can be used simultaneously to create a beautiful space. We also strived to make the trim as thin as possible. A bathroom of unity and style can be yours

A compact unit offering freedom of choice for more beautiful bathrooms.

Concealed faucets liven up the bathroom. TOTO's MINI UNIT is a technology that gives you more freedom. We don't match the concealed system to each trim, instead we use a shared module. You can choose the functionality you need such as a single lever type, thermostat type, or touch button type, and also make choices based on design features such as round or square fixtures

Easier to install. Less load on the frame.

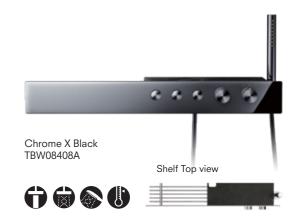

A high degree of flexibility when installing the MINI UNIT is one of its most attractive features. We were able to achieve one of the industry's smallest and lightest bodies for the concealed system. It puts only a minimal load on the architectural frames and has improved manageability during installation. In order to conceal the unit, the wall only needs to be $97 \, \text{mm}$, and the system is able to absorb installation errors of $\pm 13 \, \text{mm}$.

A perfect showering experience with just one touch.

Choose your shower experience with a simple switch.

For the hand shower we installed a switch right at your fingertip, and for the over head shower the switch is located inside the showerhead. For the hand shower you can change easily between WARM SPA/COMFORT WAVE/ACTIVE WAVE, and for the over head shower between WARM SPA and COMFORT WAVE. Feel free to enjoy the perfect shower for your mood.

Intuitive operations make it easy to get the showering experience you want

The handheld shower is equipped with a lever that is easily operated with your thumb while you hold it. Moving this lever left or right changes the water discharge mode. The body shower provides two water discharge modes. It has a form that allows a comfortable grip, with water delivery switched by rotating the main body left or right. Being able to freely switch between water discharge modes provides a pleasant bath time.

The soothing sensation continues long after your shower ends

"The technology makes a more enjoyable shower, so I choose TOTO."

Making bathtime more stimulating.

Wash off the day's weariness. Welcome a new morning refreshed. Make this essential everyday experience not just a boring bathe, but a time of joy. TOTO's new shower series has elevated design and functionality. Enjoy a truly enriching experience with complete relaxation of body and soul.

PUBLIC

TOTO products utilize the latest technologies to provide clean add sustainable washrooms. Water-saving, energy-saving, and user-friendly, every detail and every mechanism is designed to offer comfortable, healthful, and hygienic lifestyles.

CEFIONTECT

ECO CAP

CLEANLINESS

Touchless Technology

From the time you enter a restroom until you leave,
TOTO's touchless products perform
every action necessary without direct physical contact.

With many people using the restrooms in train stations, shopping centers, schools, offices and other facilities, it is of utmost importance that public restrooms are sanitary. Plumbing fixtures should have functions that can reduce the spread of coronaviruses, influenza, noroviruses, and other infectious diseases which can have a serious impact on society. TOTO restroom fixtures are equipped with touchless functions that enable people to use the toilets, then wash and dry their hands without having to come into contact with the fixtures themselves. In addition to ensuring that restrooms can be used sanitarily and comfortably, the risk of spreading infectious diseases is greatly reduced. TOTO goes beyond merely 'sanitary' to achieve an extraordinarily high level of hygiene for restroom fixtures.

Every action is performed hands-free.

Automatic flushing toilet

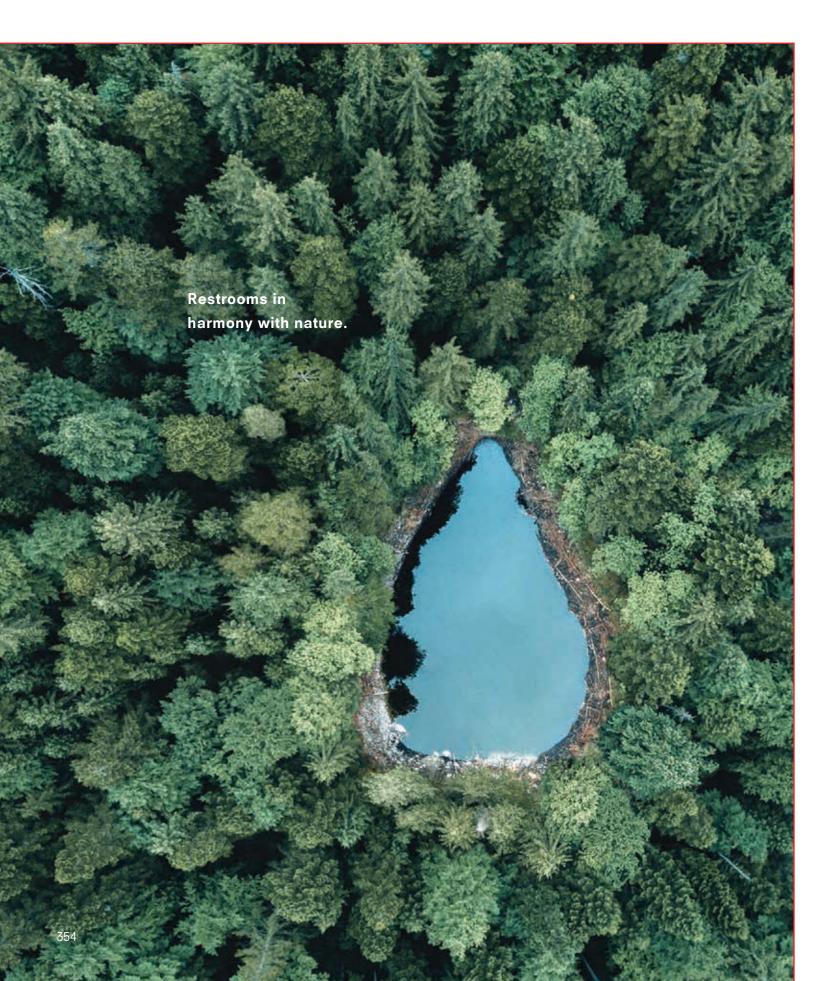

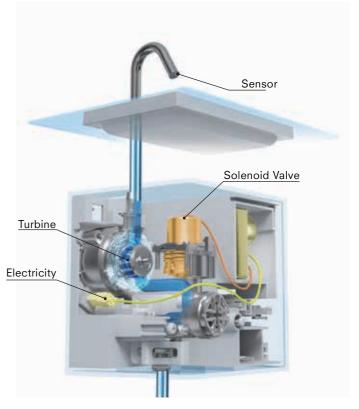

Touchless soap Touchless fa dispenser

Automatic hand dryer

EARTH-FRIENDLY

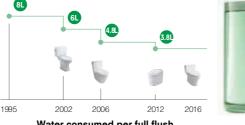

This ECOPOWER touchless faucet uses the flowing water to generate the electricity it needs to operate. There is no need for electrical wiring,

Features for enhanced water-saving and energy-saving without sacrificing comfort or convenience.

Reducing CO₂ emissions has become an issue of global importance, but how can public restrooms be made more earth-friendly? The answer is to minimize the amounts of water and electricity used. As a leading manufacturer of plumbing fixtures, TOTO has been working to reduce water and electricity consumption by our fixtures for many years. Today, TOTO's water-saving toilets use just 3.8 liters of water per flush, the world's highest standard of water-saving performance and about half the amount of water used by toilets in 1995. TOTO continues to develop fixtures that conserve water and electricity while maintaining comfort and convenience. One example is ECOPOWER touchless faucets, which use the flow water to generate electricity and ECO CAP, which mixes air with water so users can thoroughly wash their hands while using less water.

Steadily reducing toilet water consumption

ECO CAF

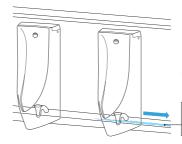

SERVICEABILITY

Clean and sanitary even in places that can't be seen. Public restrooms that are easier to clean and service.

It is important to maintain a high level of comfort and convenience when considering ways to reduce the amount of work needed to clean and service a restroom. TOTO has developed a variety of innovations and technologies for keeping restrooms clean and sanitary and for suppressing the accumulation of waste, not only in visible areas but also in places hidden from sight such as the inside of pipes. Urinals are periodically flushed automatically when not in use, such as at night to keep drainpipes clean. Though innovations such as a compact urinal trap that efficiently replaces the water after use, and EWATER+ for preventing stains and odors, restrooms are kept sanitary while effectively conserving water.

Interval Flushing System

Automatically flushing after each use, the urinal also flushes periodically to prevent the buildup of urine scale in the drainpipe.

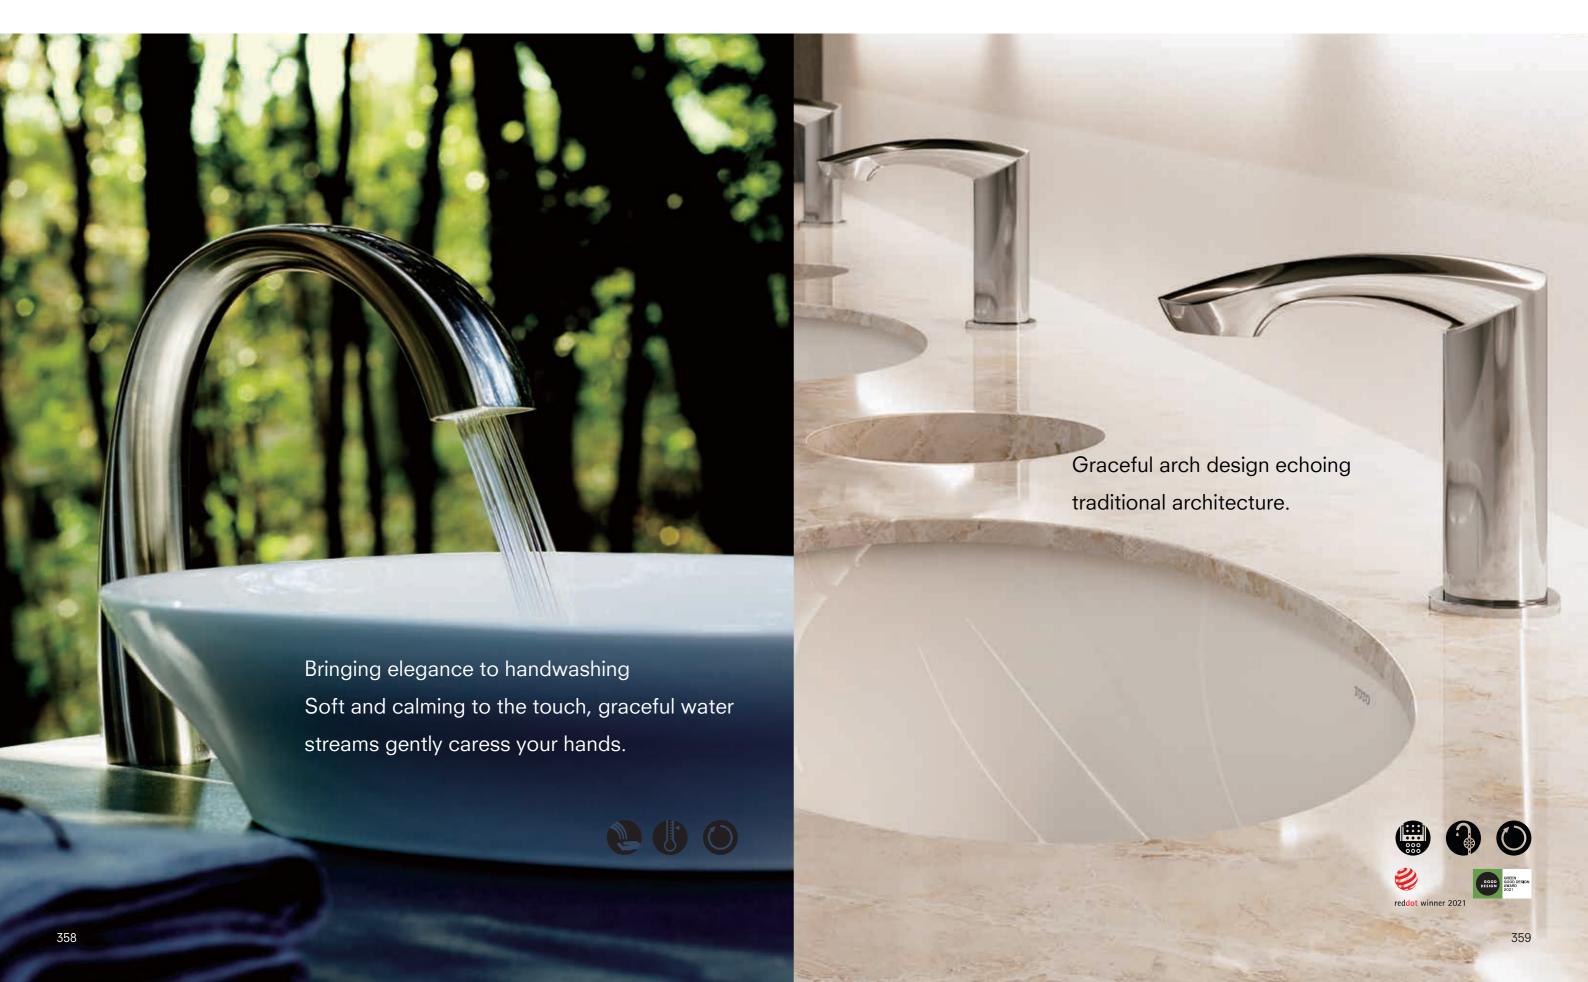

Wastewater containing a high volume of uring remains in the drainpipe even after flushing with each use

ECOPOWER

This sensor-activated TOUCHLESS FAUCET generates its own electricity. ECOPOWER technology requires no external power source, has no minimum daily usage requirement, and is capable of generating its own power at the ultra-low flow water volume is only 2.0 L/min. ECOPOWER is environmentally sustainable.

SOFT FLOW

Elegant streams of water from SOFT FLOW faucets gently touch skin. A premium calming experience. Soft and soothing. Sensor-operation eliminates the need for levers or buttons to touch, offering a new level of cleanliness for your health and wellbeing.

Applicable model: TLE21, TLE24

ECO CAP

ECO CAP is an air-injection technology, which reduces water consumption. Aerating the water increases it's volume, so you can wash your hands with full stream while using less water.

SOAP DISPENSER **PUBLIC**

Functions and durability that prevent malfunction and troubles due to misuse or vandalism.

A wide variety of people utilize public spaces, from small children to adults, and misuse or vandalism can lead to malfunctions and other troubles. TOTO automatic soap dispensers have functions and durability to minimize breakdowns and troubles, regardless of the circumstances.

Designs that prevent liquid soap from getting on people.

Children sometimes play with automatic soap dispensers, and even adults may press against the spout, having confused them with push-type dispensers. We therefore designed our spouts with a groove so that when liquid soap is dispensed, if the tip is covered soap will squirt out toward the back, not in a way that will cause it to spray on the user.

A spout structure designed for strength, difficult to break.

Assuming that strong forces might be applied to the spout tip, we inserted a pipe within the base for increased strength. Even if the spout is damaged, this prevents cracking and breaking at the base.

URINALS 374

Bringing a whole new level of hygiene with TOTO integrated urinal

Integrated with EWATER+ that are electrolyzed water that will help to reduce waste and dirt. It helps to break down organic matters found on the urinal.

CEFIONTECT

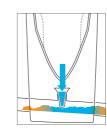

A super smooth ion barrier glazing on the urinal. Helps prevent stains event after a long term usage

SUPPRESSES bacteria growth in the trap of urinal

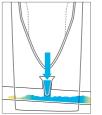

Regularly spray EWATER+ to effectively inhibit pollution in the trap area

Schedule Flush

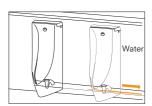

1) The first inital flush will clear the drain pipe to avoid any harden debris.

3) The second schedule flush will then further dilute the urine concentrate and make the pipe cleaner

Urinal Automatic Interval Flush

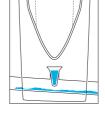

Every 2 hours, it will flush automatically

2) 1st Flush State

4) 2nd Flush State

USWN810BE#XW

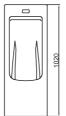

Floor Mounted Urinal w/ Built in Sensor (AC 220V operated)
Flush Volume: 1.9L (Optional Pre Flush 1.2L)
Size: 390W x 380D x 1020H mm

UW904M#NW1

Wall Hung Urinal (Top Inlet) with Wall Flange Flush Volume : 0.5L (Min) &

1.9L(Max) Capacity

UW904VM#NW1

Wall Hung Urinal (Back Inlet)

with Wall Flange

Flush Volume: 0.5L (Min) & 1.9L (Max) Capacity

: 260W x 345D x 675H mm

USWN902AS#XW

Wall Hung Urinal (AC EWATER+ Type)

W/Built-in Sensor

Water Pressure : 0.07MPa ~ 0.75MPa 0.50L Flush Volume Power Rating : 220~240V, 50/60Hz 380W x 390D x 660H mm

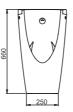

UW350HJT1#W

Wall Hung Urinal (Back Inlet)

Flush Volume : 1.9L(Min) & 5.0L(max) Capacity
Size : 370W x 360D x 735H mm

Flexible Hose

T62-16V1

Inlet Spud

TX253U Wall Flange

USWN902AE#XW

Wall Hung Urinal (AC Type)

W/Built-in Sensor

Water Pressure : 0.07MPa ~ 0.75MPa Flush Volume : 0.5L

Power Rating : 220~240V, 50/60Hz : 380W x 390D x 660H mm

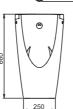

Inlet Spud
